**AQUACLEAN**
CORDLESS ROBOTIC POOL CLEANER

Smart Device Connection

Easy operation on your smart device:

1. Please download our WYBOT App through Apple Store or Google

Play on your smart device;

2. Power on the robot, open the App, via Bluetooth® or WIFI search your robot for connecting, then you can operate the robot on your device.

Note: Bluetooth® or WIFI will lose connection underwater, please connect and operate the robot through App before putting it into the pool.

Pool Water Condition

Remark: The pool water condition must be within following parameters:

- pH: 7.0-7.4
- Temperature: 50°F- 95°F (10°C - 35°C)
- Salt: Max. 5,000 ppm
- Chlorine: Max. 2 ppm
